

## CAR celebrates its 30th Anniversary

The CAR Showrooms will resume in the Autumn.

In May CAR marked its 30th anniversary with a series of discussion forums at the Gwydir Street offices. People were invited to explore where we work, experience what we do, find out who we are, and take part in the forums. The forums covered three topics:

**Adapt or Rebuild** To meet climate change objectives, Britain's building stock has to be radically upgraded over the next generation. Can this be done by adapting our existing buildings? – or do we have to rebuild?

**New workstyles – new work settings** The world of work is in turmoil, with new services, new technologies, new skills, new business models. How will this impact on new work settings?

**Cambridge Transport** Cambridge transport is in a state of near-paralysis. Will the City Deal and other initiatives lead to a better future for Cambridge transport?

The CAR30 events concluded with a party in the courtyard of its offices in Gwydir Street.
