Anne Cooper

Director, AC Architects Cambridge Ltd

Chair, Friends of Mitcham's Corner

Mitcham's Corner is designated as an 'Opportunity Area' in the Draft Cambridge Local Plan 2014, with a stated objective that any new development should contribute to the 'human-scale' aspect of the area. Anne has been involved in local consultation and discussion to encourage the positive aspects of new development, with the long-term aim of replacing the gyratory system with a multi-modal junction. She will outline local efforts to raise awareness of Mitcham's Corner as a distinct Cambridge community, through initiatives such as the 'Mitcham's Models' Exhibition and the University of Cambridge IDBE design project.
