Jim Ross & Emily Partridge
Cambridge Architectural Research

The K1 Cohousing group, with the support of CAR, intend to commission a Cohousing community consisting of between 36-40 dwellings, a common house and other shared facilities, on a one-hectare site in northwest Cambridge. Over the last nine months and through a series of workshops, Jim Ross and Emily Partridge have been working with the K1 Cohousing group to develop and agree their client brief. This talk will reflect on that process and some of the key outcomes.
