

## Panacea or Unintended Consequences? The Green Deal, ECO and traditional buildings

*External insulation in impermeable render and brick slips, Stockton. Unintended consequence: condensation.*

### John Preston

John Preston MA (Cantab) DipTP IHBC is an artist, historic environment consultant and lecturer. Formerly Historic Environment Manager for Cambridge, he now leads on green issues for the Institute of Historic Building Conservation. He represents IHBC on the Sustainable Traditional Buildings Alliance steering group and on DECC's Older Properties Working Group. He will introduce the groundbreaking work of the STBA in challenging the suitability of new construction standards for older buildings, and STBA's DECC-funded Guidance Wheel and Knowledge Base launched in Cardiff on 13 March 2014.

Wednesday, 26 March, 2014  
CAR Offices, 25 Gwydir Street  
Drinks from 5.30 p.m. Talk at 6.00 p.m.

Please let Maria know by Tuesday, 25 March, if you will be attending ([maria.sylvester@carltd.com](mailto:maria.sylvester@carltd.com)).
