

## Existing Buildings on Brownfield Sites: Demolish or Adapt?

*King's Cross redevelopment – exemplar of heritage-based regeneration*

Hannah Baker

*CAR Associate*

*Department of Engineering, University of Cambridge*

Hannah Baker will review her PhD research focusing on the decision to demolish or adapt existing buildings on brownfield sites. She will discuss the benefits and drawbacks of demolition and adaptation, citing selected case-studies, and how these decisions compare to those generated from theoretical decision models. She will outline her preliminary findings for decision-making criteria extracted from workshop discussions and interviews with key stakeholders in the decision-making process.

Wednesday, 1 June, 2016

CAR Offices, 25 Gwydir Street

Drinks from 5.30 p.m. Talk at 6.00 p.m.

Please let Anna know by Tuesday, 31 May, if you will be attending ([anna.petrosyan@carltd.com](mailto:anna.petrosyan@carltd.com)).
