

Energy and Housing

Science against the odds, or gambling to keep the lights on?

Jason Palmer and Martin Hughes

Cambridge Architectural Research Ltd

CAR has been doing the main housing energy modelling for the UK Government's Department of Energy and Climate Change for two years. Our work is used in Great Britain's Housing Energy Fact File, National Statistics, to answer questions in the House of Commons, and to plan the Department's work aimed at improving energy efficiency. However, there is considerable uncertainty in our work. How should we tell the Government?

Wednesday, 28 March, 2012

CAR Offices, 25 Gwydir Street

Drinks from 5.30 p.m. Talk at 6.00 p.m.

Please let Maria know by Tuesday, 27 March, if you will be attending (maria.sylvester@carltd.com).
