

Planning Recovery in Chile

Stephen Platt

Chairman, CAR

Disasters leave huge scars in people's lives, the economy and infrastructure. Yet despite the damage there are opportunities to do some good – to 'build back better'. This process of recovery involves planning, at both the national and international level and at the neighbourhood scale. Steve Platt went to Chile to see how CAR's method of using satellite imagery might be used to aid planning and monitor recovery.

Wednesday, 1 February, 2012

CAR Offices, 25 Gwydir Street

Drinks from 5.30 p.m. Talk at 6.00 p.m.

Please let Maria know by Tuesday, 31 January, if you will be attending (maria.sylvester@carltd.com).
